

In the night-time as we reach the top of the hill approaching Gunnison from the north, the shining street lights, the brilliant neon signs along Main Street, and the sparkling lamps all over the valley, blaze forth a radiant welcome to our city of happy homes and friendly hearts.

In the daytime our spacious park with its refreshing swimming pool and lovely gardens, its fireplace and other picnic facilities beckon passing travelers to stay awhile and enjoy our gracious hospitality. Swings, teeters and a ball diamond offer enjoyment for participants and spectators alike.

Gunnison is situated at the junction of two important highways--28 linked with the well-traveled Highway 91: and the celebrated scenic Highway 89. The skyline mountains of varied hue, height and form are inspiring and impressive at any time of day or season of the year.
